

LIBRARY SWEETHEARTS

Tap into your students' love of games by playing Library Sweethearts with favorite story characters.

- Divide students into two teams.
- Read the clue aloud. Teams take turns trying to guess the story character's name. You can also count the name of the book or series as a correct answer. The team gets three tries before it "strikes out" on the clue.
- To deter the opposing team from calling out the answer, tell them the point goes to the other team if the wrong team yells out of turn.
- If the team doesn't answer correctly after three tries, the opposing team gets to try one time.
- Switch which team is up for the next clue.
- Give each person on the winning team a coupon or ticket to check out an extra book.
