

Family Traditions Timeline

Discuss the form and purpose of number lines and timelines using a resource like Nancy Kelly Allen's ***Hopping on the Number Line***. Supply paper and rulers for children to create a timeline with the twelve months in the year, or use the Family Traditions Timeline activity sheet (that follows). Invite children to plot their personal family traditions on their timelines. Examples of traditions may include birthdays, favorite holidays, annual trips and vacations, and other regular family events.
